# Sand Dollar: A Story of Undying Love

Written by Sebastian Cole

**BOOK SUMMARY:** From his hospital bed, eighty-year-old Noah Hartman describes his life of love and loss to Josh, a wise orderly at Mt. Sinai Hospital. Noah laments that if he had only known about Robin's hidden secret, he would have held onto her so differently. Instead, the one he loved the most would forever be the one who got away. As his family members arrive to bid him goodbye, Noah's story takes on new life, and Noah discovers a far greater truth about the past, present, and future. Things are definitely not as they appear as the pieces of a shattered love are put back together in the remarkable final chapter of Noah's life.

*Sand Dollar* is an epic, heart-wrenching love story about "the one who got away." A story about a love gained, a love lost, and through it all, a love that just won't die. It is best described as a romantic fantasy, kind of like *The Notebook* with a *Sixth Sense* twist. Similar to a Nicholas Sparks novel but uniquely different, *Sand Dollar* is a thought-provoking, emotional read that, among other things, might even have you yelling at the main characters at times. A mixture of joy and heartache, this realistic portrayal of life is what sets *Sand Dollar* apart. And not only is it filled with plenty of twists and turns that make it hard to put the book down, but the surprise ending will knock your socks off!

**ABOUT THE AUTHOR:** Sebastian Cole's debut novel, *Sand Dollar: A Story of Undying Love*, was emotionally inspired by Cole's own personal life experiences. Born and raised in New England, Cole joined his family's business after graduating from Brown University in the 80s. A true romantic, his life is defined by following his heart and pursuing his dreams, which is why he has become a novelist. He writes from the heart, firmly believing in true love, love at first sight, and finding the one person in life you're meant to be with.
